CHILDREN AND YOUNG PEOPLE IN CARE

This year we will offer grants for practical research into new ideas for improving the lives and outcomes of care-experienced children and young people.

We will fund you to visit the best projects in the world that are tackling this issue, meet the leading practitioners, and bring back new ideas to make a difference in the UK.

We will consider topics that relate to children in care, those on the edge of care, adoptees, care-leavers, care-givers and families affected by care issues.

This category is a partnership with The Hadley Trust.
